

Slot2- Basic Components

1. Basic Component:

2. Intent: transfer data from activity A to B

3. Activity (form)

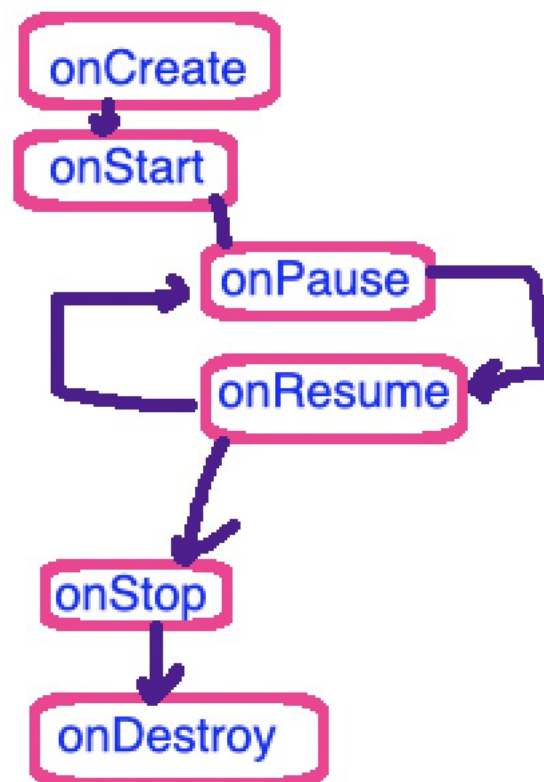

Activity=Java file + XML file

Java: coding

XML: design

findViewById

4. lifecycle of Activity:

5. Coding:

-Activity A call Activity B

```
Intent i=new Intent(A.this,B.class);
```

```
//put data to intent
```

```
intent.putExtra("name",data);
```

```
//go
```

```
startActivity(i);
```

```
//In B: receive data
Intent i1=getIntent();
//unboxing
i1.getStringExtra("name");
-----
```
