Slot7 – Save data to file

1.Save data:

S1- Get path of file

Environment.getExternalStorageDirectory() .getPathAbsolute()+"a.txt";

S2- create stream for save data

OutputStreamWriter o = new OutputStreamWriter(new FileOutputStream(path));

S3- Execute

o.write(s);

S4-Close cursor:

o.close();

2. Read Data from file

S1- Get path of file

Environment.getExternalStorageDirectory() .getPathAbsolute()+"a.txt";

S2- Input data:

```
Scanner s=new Scanner(new File(path));
while(s.hasNext()){
     dataa=s.nextLine();
}
```

S3-Close stream

s.close();

3. Save data for SharedPreference:

Goal: Save password for later
